

MINERAL STONE PLASTER

StucGranito

Forty mineral shades.

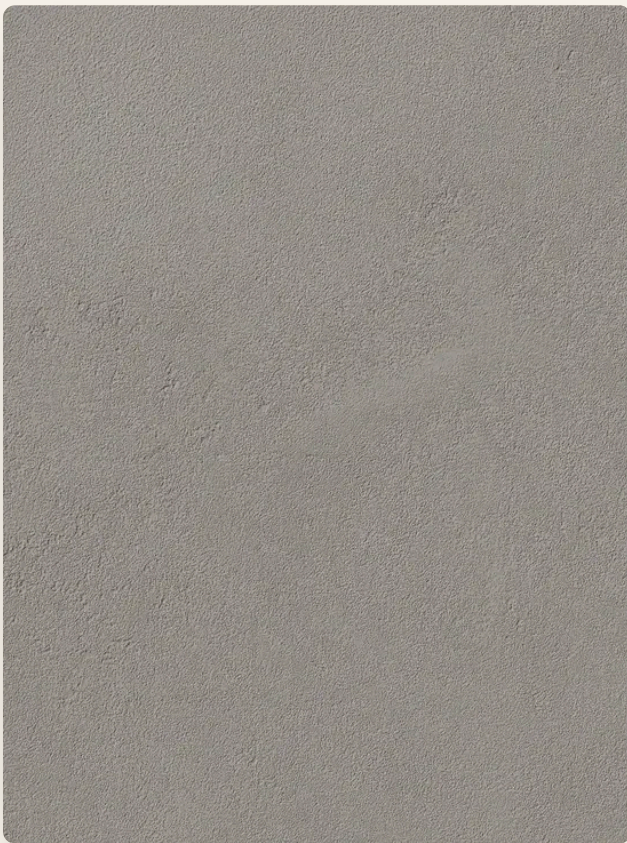

Coloured on site with mineral pigments — natural, earthy tones from light sand to deep, dark stone, with an unlimited range on request.

FINISHES

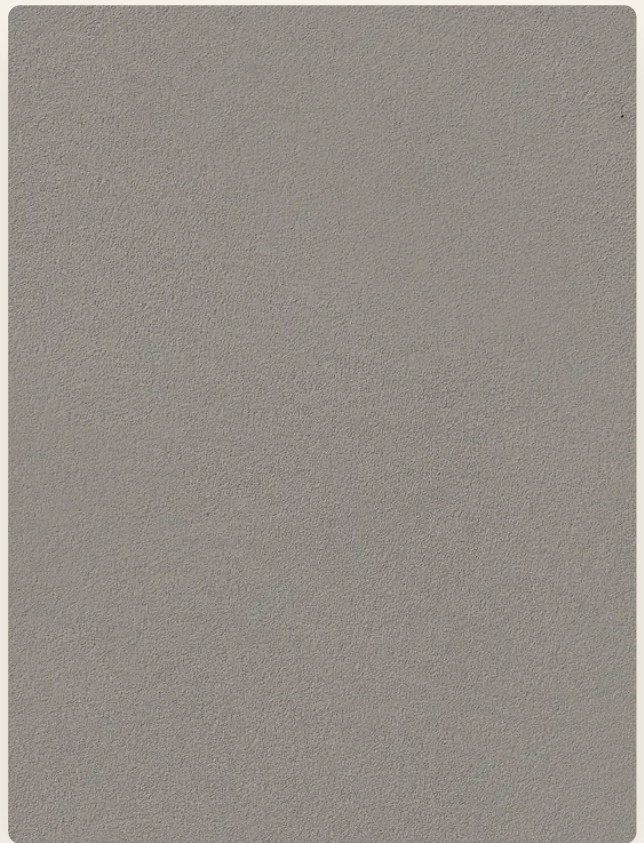

Matt or polished.

The same stone plaster reads two ways — a matt, even mineral surface, or polished to a soft sheen that deepens its colour and brings out its density.

Mineral

A matt, even stone-like surface.

Polished

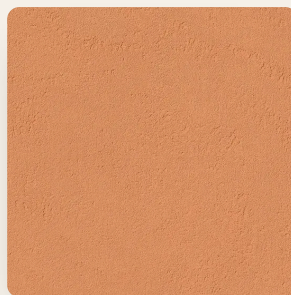

Polished to a soft, dense sheen.
